

Amy Wood is a best selling author, speaker, consultant, and coach. She has a background in Healthcare Information Technology and has spent the last decade as a HIPAA Educator, Risk Assessor, and Data Breach Consultant. Out of the over 160 data breach investigations she has consulted on, her clients have received ZERO fines and ZERO patient lawsuits.

Amy has always come through for us with High-Quality lectures that explain all the cyber risks out there for healthcare professionals.

HIPAA Sucks!

Putting the HIP back in HIPAA

Predictable Failures

A plan for Disaster Preparedness

What The Tech?

Internet Hygiene & Cybersecurity

HIPAA is boring and confusing and just flat out SUCKS! So how do you get the information you need to stay compliant without nodding off in the middle of a lecture? Two words: Amy Wood.

This course breaks down the things you need to know in an easy to understand way while using real life examples so you can get (and stay) compliant!

What you get

- All the HIPAA basics.
- Ability to identify Protected Health Information, how to protect it, and what your vulnerabilities are.
- An understanding of what is reasonable and appropriate for your business.

In today's world, the next big emergency is always right around the corner. Whether it's your computers, employees, clients, natural disasters, or uncontrollable viruses, it pays to be prepared for something to go wrong! So how do you prepare? How do you protect your business you worked so hard to build? The answer: you plan for things to fail.

What you get

- Learn the types of threats that exist for a modern business.
- Ability to recognize cyber threats and how to prevent them to avoid a costly mistake.
- Learn how to create, and implement, a Business Impact Plan.

Technology is great! It can help you communicate at a faster pace, capture moments in time with a simple click, or even make dinner show up on your doorstep without you leaving the house! But what happens when that same technology turns against you? Hackers have gotten smarter and more skilled, so we need to get more proactive in data security!

What you get

- Learn the types of Cyber Threats out there
- Ability to identify a legitimate email versus spam
- An understanding of cyber safety precautions to avoid a costly mistake.

Main Courses

Most organizations choose to combine these courses into one educational program

Amy Wood

HCISPP, HCSA, HCSP
CEO Copper Penny Consulting, LLC
HIPAA Educator, Risk Assessor,
Breach Mitigation Expert

Copper Penny
Consulting, LLC

"Her training materials, manual, and presentations are organized and easy to follow. She is not only thorough, but also easy to work with."

-Craig H. Davis, DDS, MSD
Rohnert Park, CA

Your insight and teaching style allowed us to have an interesting and interactive course. We would be more than happy to have you return and lecture again. Our Members were surveyed and reported back with nothing but positive comments.

Thank you again for the great learning experience.

-John Hamilton
Tulare-Kings Dental Society

"She truly knows her industry as well as all the HIPAA Compliance rules."

--Megan Duncan
Santa Clara County Dental Society

Other Available Courses

California Dental Practice Act

Covid Sucks, Too!

HIPAA Deep Dive for Privacy Officers

Business Associates Need HIPAA, Too!

"Amy has excellent communication and presentation skills. There has never been a dull moment with our 15+ year relationship."

-Nicole Le DDS & John Savko DDS
Le & Savko Dental Care

Amy takes your boring, every day compliance course and turns it into an entertaining and educational conversation. Her goal is to educate as many people as she can so she doesn't HAVE to do data breach investigations (although she is here to help if you ever find yourself in one!)
